Farmers to Get Wheat Pay

Fifty Per Cent of the Excess to be
Paid by Middle of July

Ottawa, June 28.—Farmers will
receive fifty per cent of the excess
due them on Canada wheat board
certificates about July 15 next.
Definite announcement has been
made that this excess on the original
wheat price will be at least
forty cents per bushel.

Interviewed by the Canadian
Press regarding the exact effect of
the announcement, Sir George
Foster stated that the exact price
of last season's wheat crop would
not be decided yet. Several mil-
lion bushels had yet to be disposed
of by the board, but meantime the
board would be able to make a 50
per cent payment to wheat growers
and this would not be less than 20c
per bushel. The balance would be
payable when the marketing of
last season's crop was completed,
and not later than the end of the
present year.

STRATHCONA CONSTITUENCY

U.F.A. Candidate Not Nominated

Continued participation in poli-
tics, with a policy looking toward
entering both the provincial and
the federal fields, was decided upon
by the United Farmers political
organization of the Strathcona
constituency at its annual meeting
in Wetaskiwin on June 23rd.

No nomination for a federal candi-
diate was made, however, a vote of
twenty-four to fourteen disapprov-
ing of such a step at the pre-
sent time.

Resolutions calling upon the
Unionist government to resign and
protesting against a national pro-
gram of military training was pas-
sed.

A political campaign fund will
be raised, and the executive was
authorized to take such action in
that direction as might be possible.
Incorporation was believed to be
necessary before the funds so col-
lected might be expended.

The new president of the or-
ganization is John Galloway, of Ed-
monton, and the vice-presidents
are Rive Sheppard, of Edmonton,
and Mrs. A. Ross, of Millet. The
meeting elected directors for the
provincial constituencies as fol-
lows: Ledon, J. Holt; Wetaskiwin,
E. Rasmussen; Ponoka, Mrs. Archi-
bald; South Edmonton, J. Davis.
Definite political action in pro-
vincial affairs was endorsed in
principle, though a number of the
delegates did not consider the pre-
sent a good time for such action.

Democrat Convention

San Francisco, June 28.—Dur-
ing its one brief session today the
Democrat's national convention
heard the keynote speech delivered
by National Chairman Homer S.
Summers, and several prolonged
demonstrations for President Wil-
son.

When adjournment was taken
until tomorrow after three hours
session, the real work of the con-
vention began among the com-
mittees delegated to write the plat-
form, decide appeals of contesting
delegations, and select a set of
permanent convention officers.
Demonstrations for President
Wilson began as soon as the ses-
sion opened, and every mention of
his name thereafter was received
with cheers. Display of a portrait
of him at the back of the platform
stirred up a 20-minute uproar,
during which nearly all the states
standards were carried about the
floor in the first parade of the con-
vention. Mention of the League
of Nations also aroused prolonged
outbursts of applause.

Magic

HUGHES JAMES

On Wednesday, June 23rd, a
pretty wedding was solemnized at
the home of W. H. James, in the
Magic district, the contracting
parties being Mr. W. Hughes, of
the Wool River P.O., and Miss
Hazel James.

Both parties are well known in
the town and neighborhood—Mr.
Hughes having been a resident of
the Magic district for the past
twelve years, while Mrs. Hughes
has been in the Merchants' Bank
in Ponoka for the past year. They
will make their home on the J. H.
Hughes farm, near the post-office,
and will have the best wishes of a
wide circle of friends and acquaint-
ances for a prosperous future.

The bridesmaids were Miss Eliza-
beth Hughes, the bridegroom's
sister, and Miss Marie James, the
bride's sister, while Mr. Ervin
James and W. James supported
the groom. The Rev. T. E. Jeff-
reys officiated.

side for or against a political pro-
gram, and on this understanding
the resolution passed.
Considerable discussion arose
over the question whether to throw
the U.F.A. open for outside mem-
bership in its political organization
or to close it tight.

Alex. Moore, member for Cuth-
bert, was strongly in favour of the
open-door policy, but P. Baker, of
Ponoka, as strongly defended the
policy of closing the doors tight,
and the latter was the one that was
finally decided upon. It will be a
strictly U.F.A. organization in
future.

Baseball

PONOKA PROVE
THEMSELVES CHAMPIONS

Baseball on Tuesday night was
well worth seeing, and every avail-
able space on the grandstand was
filled with spectators to the number
of about 500.

The game was a tussle between
Innisfail and Ponoka, when the
home team won out by a score of
11 to 5, making seven straight
wins for Ponoka. Innisfail opened
well, scoring 2 in the first inning,
while the Nifty Nine kept equal
with them. Both teams were a tie
in the third inning, and in the
fourth Ponoka got off to a good
lead, scoring 7 runs to Innisfail's 1.
By this time Innisfail had tried
no less than three pitchers, while
A. Millon pitched a good ball for
Ponoka all through. Some nice
double play was witnessed, but the
big noise of the game was Veno,
who, without a doubt, is a ball
player, starting out as Innisfail's
catcher and ending in the pitcher's
box, and in fact was playing the
game himself. Ponoka boys were
all in good form, batting well,
and very few errors made in the
game.

Mr. Plunkett umpired the game,
and was at one time umpire for the
Northern League of Ontario. His
decisions were very fair, and in no
instance was there a dispute.

INNISFAIL WINS FROM RED DEER

In the ball game played at
Innisfail on Wednesday the
23rd, Innisfail team beat Red
Deer in a keenly contested game
by a score of 12 to 8.

THURSDAY, PONOKA BEAT RED DEER
Thursday, Ponoka journeyed to
Red Deer and played a swift and
exciting nine innings' game, and
at the end of play, the score stood
7 to 2 in Ponoka's favour.

Thursday being the half holiday,
a large number of supporters
accompanied the team.

LACOMBE PUTS IT OVER INNISFAIL
Friday night Ponoka ball fans
worked up a little excitement and
decided to make the trip to
Lacombe to see the game between
Lacombe and Innisfail, and they
certainly saw a good game. Play
was a little erratic, but as the
game proceeded Lacombe got
down to business, batting well,
and left Innisfail behind. The score
was 13 to 7 in favour of Lacombe,
thus registering Lacombe's first
win in the Central Alberta Amateur
League.

RED DEER WINS
Red Deer beat Lacombe on
Tuesday night at Lacombe by a
score of 8 to 2.

Thursday, Ponoka goes to Innis-
fail, and to Lacombe, July 6, Red
Deer plays at Ponoka, July 5.

The League standing is as follows:

Mr and Mrs J. J. Beck and Jack Kelly left Monday for Toronto where they will spend a few weeks with relatives.

Mr and Mrs W. J. Bell, who have spent a few months in our midst, left for their home in Nebraska on Sunday.

Mrs Purchall and son, Harry, are visiting in Calgary and Regina. They expect to be away for the summer months.

B. J. Werner has just completed 2 1/2 miles of fencing, and is now busy breaking. Nothing slow about Ben, and he will have a very valuable piece of property at no distant date.

At a recent meeting of Rebekah Lodge, Mrs Bert Penlidon was presented with a veteran's jewel. Mrs Penlidon has the distinction of being the first member in Alberta to attain that honorable position.

Mr and Mrs J. A. G. Grantham 215 Princess Avenue E., Brandon announce the engagement of their second daughter, Dalcie Vera, to Dr. Thomas Charles Smith, of Ponoka, son of Mr and Mrs Chas. Smith, of Kingston, Ont., the marriage to take place early in July.

While seeding is completed, the farmers are still busy—breaking, clearing, and a good deal of summer fallowing is being done. Road work is claiming attention, and most of them are in good condition. The crops are looking splendid, and altogether conditions are most promising.

The school closed for the summer holidays this week, and teachers and pupils are away for a jolly vacation. Principal Smith has gone to Ontario, and does not expect to return to the west. Miss Pearce is visiting at the coast, and the rest of the staff are arranging to leave forthwith. As usual, there will be changes on the staff when school resumes.

The Ponoka fair price-list is now ready for distribution. As usual, the business men have supported it liberally both advertising, and the book is a tractive one. The date of the fair is July 20-21, and everything points to a successful event. President Bell and the directors are busy with the arrangements, and a full list of sporting events will be published later. Do not forget the date, Tuesday and Wednesday, July 20-21.

Dr. Mecklenburg, eye specialist, will be at the Royal Hotel, Ponoka, on Tuesday, July 13th.

Higher Salaries for Cabinet Ministers And Members

Ottawa.—Cabinet ministers and judges are to get increased salaries and members of parliament are to get the \$4,000 indemnity which they have been advocating. The government's intentions in the matter were revealed in a statement issued by the prime minister.

The salary of members of the cabinet is to be increased from \$7,000 to \$11,000 per annum; that of the prime minister from \$12,000 to \$15,000. The salary of the solicitor-general, who has not usually held cabinet rank, is increased from \$5,000 to \$7,000; that of the leader of the opposition from \$7,000 to \$10,000; of the speakers of the senate and the house of commons from \$4,000 to \$6,000; and of the deputy speaker of the house from \$3,000 to \$4,000. The seasonal indemnity of members is increased from \$2,500 to \$4,000.

The salaries of judges of the supreme court of Canada, of judges of the superior courts of provinces and of county court judges are similarly increased. Announcement of an increase in the seasonal indemnity, accompanied by the further intimation that the government is proposing to amend existing legislation in regard to members attending the house, was made.

The following are the increases in judicial salaries recommended: Supreme court of Canada, Chief Justice, from \$10,000 to \$12,000. Justice, from \$9,000 to \$11,000. Superior courts of provinces.—Chief Justices, from \$8,000 to \$10,000. Justices, from \$7,000 to \$9,000. County courts.—Judges of county courts in the provinces of Ontario, Quebec, New Brunswick, Nova Scotia, and Prince Edward Island, which have a population of 40,000 or over, an increase of \$1,000, that is, from \$4,000 to \$5,000 per annum.

Notwithstanding these increases judicial salaries in Canada are still substantially below those paid in the United States. The judges holding corresponding positions in Great Britain and some of the other dominions of the empire, the statement says.

Retaliation of Hungary

Hungary Has Begun an Energetic Counter-Boycott Against Austria

Vienna.—In retaliation for the international transport boycott against Hungary, started on Monday, Hungary has begun an energetic counter-boycott against Austria, whose trucks are taking an aggressive part in the action instituted by the international organization in protest against the alleged Hungarian persecution of working elements.

Freight and passenger service on the railways and communication by river have been cut off by Hungary. Food largely on the way to the Danube from countries to the East were stopped in Hungarian waters. In pursuance of international boycott traffic in the direction of Hungary remains totally suspended. Trains from Vienna for Hungary are being held up at the frontier and loaded with passengers ready for the trip. It is reported that Hungary has proposed that leaders of the Danube meet in Vienna to discuss the calling off of the international boycott.

Uster Wages Protection

Belmont.—The standing committee of the Uster unionist committee has decided to call on the government to protect the lives and property of loyal inhabitants of the province with the forces of crown.

Failing this protection the committee decided that it should recognize and utilize the service of the Uster loyalists.

Increase in Savings Deposits
Ottawa.—Savings deposits in Canadian banks increased during May by about \$20,000,000; within the last 12 months they have increased by over \$120,000,000. Demand deposits during the month were lower than in April. Current loans for the month were slightly higher; call loans in Canada show a decrease.

Labour Party Prohibition
London.—The labour party conference at Scarborough rejected prohibition resolutions by overwhelming majorities, but carried a resolution favouring local option.

Heaps Addresses British Audience

Winnipeg Striker Speaks at Labor Party Conference at Scarborough

London.—The labor party conference at Scarborough was addressed yesterday by Alexander Heaps, representing the Winnipeg strikers on the proposed appeal to the privy council from sentences passed on various members concerned in the strike. He declared that any quotation put in against the prisoners as being sedition was labor party propaganda passages from Irish and from Henry George's book on Progress and Poverty.

The conference, which was noisy at times, repudiated the Paris treaty, advocated the withdrawal of the armed forces from the streets, and denying the right of any government to govern the country against the will of the majority, expressed the hope that all peoples of the British empire will prefer to remain a part of that empire as soon as their aspirations have been dealt with in a thoroughly conciliatory manner by granting adequate measures of autonomy.

Appeal to Britain for Aid

Starving Montenegro

London.—Alexander Devine, the Montenegro minister for Great Britain, in a letter to Earl Russell, the foreign secretary, for foreign affairs, urged the secretary to obtain from the Serbian government permission to allow the work in Montenegro among the starving and homeless.

The Starving Montenegro minister charges that the American relief mission in Montenegro have either been bamboozled or have played into the hands of the Serbians and the American relief mission has entered the country has been used for political purposes and none of it has gone to the starving and homeless. He had no objection to farmers getting all they could for their wheat, but he failed to see why the government should protect them from all risk. The government owed as much consideration to the consumers of the country as it did to the farmers.

Dr. R. J. Maillon, Fort William, said that naturally his constituency was opposed to wheat control, but personally he had been of the opinion that the elimination of control would result in a success of it, and he was sure that the measure was merely an enabling one, he was willing to support it.

R. G. Gaul, of Astoria, criticized the operation of the wheat board in a number of respects. He said that the board was not doing what it was intended to do, and that the board was lower than farmers of the west could obtain across the line in the United States. The difference between the price allowed by the board and the amount the farmers were ultimately to receive for their wheat was being pocketed by the farmers were thereby deprived of the use of millions of dollars.

The resolution was adopted and given first reading.

Appointment of Prince Arthur

Controversy Postponed Regarding Matter of the Governor-Generalship

London.—The chronic remarks on the appointment of Prince Arthur of Connaught as the governor of South Africa, that it postponed the matter of the governor-generalship, which many dominion statesmen, including the present South African premier, have insisted on to select the appointment of an Englishman as governor-general is consistent with the claim of equal partnership.

"This point might seem rather theoretic in view of the great practical services rendered, for example, in South Africa by such governors as Lord Selborne and Buxton, but there is no doubt that it is strongly felt and seriously urged," says the Chronicle. The Chronicle adds that the Duke of Connaught was the most popular governor Canada ever had. The prime minister, will say for South Africa with this example in front of him.

CANADA NEED NOT LOOK TO U.S. FOR COAL

Shortage Serves as Good Lesson for Dominion to Develop its Own Resources

Ottawa.—Canada need not look to the United States for its supply of fuel and that the present shortage serves as a good lesson for the Dominion to develop its own resources was the gist of an interview given by H. A. Harrington, fuel controller for the province of Ontario.

He pointed out that all the coal-fields in the States had been exploited and the present shortage had been reached. Canada's supply had not yet been reached. In Alberta there were millions of tons of lignite coal and no attempt had been made to mine it; the lesson was obvious. Get after the Alberta supply.

Russian Reactions Would Come to Canada

Wish to Come Here and Form a Community

London.—Many men and women refugees from Petrograd, mostly known as "White Russians," are being sent to a London poor law institution and are desirous of going together to form a community.

The foreign office has approached the Canadian authorities intimating that if the Dominion is willing to accept them, the government will assist them towards becoming established. They are British subjects and have no special status as Miller, Johnson and Smith, but do not get English.

It is reported that the Canadian government desires to accept them because of their desire to form a community among themselves.

Throughout Alberta there is a general feeling that the curriculum in the schools is too long.

Dispute Is Referred To League of Nations

Sweden and Finland Should Arbitrate

London.—The League of Nations announces its has reason to believe that representations have been addressed to the Swedish and Finnish governments on behalf of the allied and associated powers to the effect that Sweden and Finland should arbitrate the question of sovereignty of the Aland Islands to the League of Nations.

Sweden desires a plebiscite in the Aland Islands, which are situated in the Baltic between Finland and Sweden, claiming the majority of the population is of Swedish origin. Finland, however, is holding out against separation of the Archipelago from Finland on the ground that they are more nearly connected with the Finnish mainland and are definitely divided from Sweden.

Big Gas Strike

Heavy Flow Reported From New Discovery on Peace River

Edmonton.—Twenty million cubic feet of gas every twenty-four hours from the San Joaquin well on the Peace River is the news that H. L. Laidlaw, president of the Canadian Gas Association, is holding out against separation of the Archipelago from Finland on the ground that they are more nearly connected with the Finnish mainland and are definitely divided from Sweden.

The San Joaquin well is about 12 miles down from Peace River town and the present strike is by all odds the most promising development that has occurred since the discovery of the well. It is now being capped and the drilling operations will then be continued in a further search for oil.

Reform House of Lords

Lloyd George's Reply to Query Regarding the Proposed Reform of the House of Lords

London.—Premier Lloyd George, answering questions in the house of commons, said that the government intend to undertake the reform of the house of lords during the present parliament.

Germany would be invited to join the League of Nations when she showed a decision to fulfill the peace treaty obligations. Several questions regarding the fate of the League were put, and to one questioner the premier replied, "Your friend is not a lawyer."

Chinese Battle

Honolulu.—Battles between north and south Chinese troops at Kanihwa were reported in a Tokyo cable to a Japanese paper here.

Anti-Grasshopper Campaign
J. E. Booth, chief director of the anti-grasshopper campaign reports that in the past year the grasshopper pest, Mr. Booth advised that the pest would be spread as thinly as possible because it takes but very little of it to kill the toppers.

Importing Dairy Cows

A. J. Clark, of the Saskatchewan livestock branch, has been authorized to import a number of dairy cows which will be sold to Saskatchewan farmers at cost price. The livestock branch will spend \$10,000 on dairy cows, which will be brought here to form the nucleus of several new dairy herds.

Annual Farm Boys' Camp

Forty-one districts have already received their allotment of boys to take part in the annual farm boys' camp at the Regina exposition. The boys will be given practical demonstrations as to how to run a farm, and will be sent to camp at Saskatoon in connection with the annual summer fair at the university.

ALBERTA

Protect Wild Birds
Seven local sanctuaries have been established in Alberta. They are in the neighborhood of Many Islands Lake, Birch Lake, Tadoussac Lake, Buffalo Lake, Miquelon Lake, Minik Lake, Lac La Poudre. The aim is to protect the bird breeding areas of wild birds.

Greater Dividends
Greater dividends in Southern Alberta will be paid by the investment of \$200,000,000 in irrigation projects than any other investments, as C. A. Macdonald, chairman of the Canadian section of the International Waterways Commission, declared in a statement.

Too Much Curriculum
Throughout Alberta there is a general feeling that the curriculum in the schools is too long.

Parcel Post Helps To Lower Cost of Living

Ottawa.—Hon. Pierre Blouin's bill amending the Postal act was carried in the senate without amendments. In committee on the amendments to the Postal act, Senator Tupper, argued that the parcel post rates be increased, but the newspaper postal rates remain as they are. He claimed the parcel post service was costing the country millions and was becoming the mail order house at the expense of the country merchant. It was also denouncing the mail service and was drawing the wealth of the country into the large cities. Proposed measures would tax newspapers for the benefit of the mail order houses. Parcel post rates should at least equal express rates. Hon. Pierre Blouin, replied that the parcel post system more than made up the cost of the express rates. The parcel post system was established. The immense deficit in the postal department was due to the rural mail routes. They were now being conducted at a large loss and no new routes were being opened. This loss was due to the immense increase in the cost of rural mail carriers' wages which were three times as much as they formerly had been.

Senator Tupper stated that many of the routes had been established without consideration of the conditions brought about by the automobile which did away with the value of the rural mail delivery. Senator Proulx also protested against the abolition of franking privileges for provincial legislators, but the postal minister refused to continue these, claiming they amounted to an immense sum, and there was no reason why the federal government should shoulder the expense of provincial administrations. The bill passed through committee and received its third reading.

Will Not Increase Indemnities

Proposal to Raise Amount to \$4,000 Per Session Has Failed

Ottawa.—The proposal to increase the indemnities to members of the house of commons from \$2,500 to \$4,000 per session failed to receive the support of the government. In the house of commons after nearly a score of members of all parties had indicated their opposition, the bill was defeated. The speaker of the house, in which he admitted that many members were representing constituencies of a few hundred voters, stated that the government was not prepared to take any action for increased wages, but would not receive indemnities by the house.

St. Robert emphasized the fact that the country required such an increase in the present time of economic depression. As the prime minister clearly indicated that the government has no intention of increasing the indemnities, it would seem that the matter is closed for the present session. A private member has introduced a bill involving a money vote and the government apparently refuses to do so.

Terrible Scenes in Londonderry

Sirets Swept By a Murderous Fire For Sixteen Hours

Londonderry.—Scenes of the most terrible description were enacted here when the streets were swept by a murderous fire for sixteen hours continuously. One man was killed and ten dangerously wounded in one section of the city. Several bodies are reported to be lying in Bishop street. Among the wounded was a young girl and three others suffered slight injuries cannot be estimated.

Swearing was indulged in on a large scale. The fire was indestructible and the flames were spreading over the city. The principal conflict took place in Bishop street, where there was a large accumulation of gunpowder in the neighborhood of St. Columba's Catholic college and Nazareth home. Several houses were thrown up, in which a strong fire was directed at the Unionists. There was a vigorous exchange of fire and many casualties reported for both sides.

Turks Menacing Allied Forces

Alled Position in the Dardanelles Seriously Threatened

Bulgaria.—The commander of the British naval forces at Constantinople has notified Lloyd George that the allied position in the Dardanelles is seriously threatened. By Musagha, the Turkish Nationalist troops, who were about 40,000. These forces were reported to be preparing to launch a strong attack on the allied position. Several armaments have already been sent to the British and Turks. The latter have advanced to the British district, burning and pillaging the villages as they progressed.

Wireless Radio Called On

London.—The strike of wireless operators, which threatened to bring shipping and the vital strand of the world, has been called off. This action was taken as a consequence of meetings of the association of Wireless Telegraphists at London, Liverpool and other parts. The wireless leaders declare they have secured guarantees of fair treatment.

German Food Riots

Berlin.—Seventeen persons have been killed in Germany, and five at Ravensburg, and numerous persons were wounded in both towns during famine riots which developed into street battles, according to dispatches received here from the German frontier.

Coal Shortage in Montreal

Montreal.—The coal situation in the vicinity of Montreal is becoming serious. The Great Britain long before it will be before long plants will be compelled to close down on account of this shortage.

The Wool Market

Wool growers this year are faced by a situation which is quite unfavorable compared to conditions during the past four years. The fifty and sixty cent prices secured during the last three years are not in sight. Owing to the considerable supplies of wool coming to the United States from the old country, but due to money stringency and uncertainties in wholesale and retail business, manufacturers are not stocking up with wool at present.

It does not desert the wool market to say that wool is worth only half or less than half of what it brought last year. The fact is that there is no market, and where there are some wool-growers should understand that prices are purely speculative. In this circumstance it is fair to assume that they represent a wide spread below prices obtainable when the market becomes settled. The wool producer stands to gain by waiting for settled markets. The marketing of from fifty to ninety per cent of the wool in Alberta through co-operative commitment over the past three years has resulted in satisfactory returns to wool growers, and it would look to be a better system than ever under this year's conditions.

The grading of wool is likely to be sharp and particular this year, but when wool is graded and assembled at Toronto in proximity to both manufacturing demand in Canada, and to the United States demand, well-set conditions should be as good as they can be made this year. On this account it would seem advisable for farmers not to sell at present but to take advantage of co-operative commitment and selling for the sake of getting the ultimate value of their product. Adversely this year on wool will not be high. They will run from 15c to 20c per lb.

EDMONTON EXHIBITION

Luckless, the aviation-gymnast, who will appear at the Edmonton Exhibition on July 3-10, is guaranteed to bring more thrills into the programme than anything which has ever been seen in Alberta. He is a man of average build, controlled by experts who can anticipate his every move and he comes from one place to the other, stands on his head on the wings, hangs by his toes, and crawls all over the planes while going at full speed, in mid-air.

Auto polo will this year be an innovation at the exhibition, and horse and auto races will provide plenty of opportunity for guesswork on the part of single spectators. The attractions for the grandstand are very high class, and include the 15th Highlanders' band of Toronto, Canada's crack military band, under the leadership of Capt. Stiller. The midway will be furnished by Johnny J. Jones, the king of the carnival world, who travels personally with his show, and the contract call for the elimination of all objectionable features such as freaks and deformities, etc.

Excursion fares will prevail for the Edmonton exhibition, which opens on July 3th.

Springdale

The big Springdale and Home Glen picnic will be held in the pine grove north of Glyde, on Friday, July 9th. There will be a baseball game, horse races, bucking contest, foot races, sack races, pie-eating contest, etc. A dance will be held in the evening at the Springdale schoolhouse. Old-timers, new-comers and all—Don't forget the 9th.

Springdale is at last on the map. The telephone is coming in a week or two. There is likely to be an epidemic of stiff jaws and deaf ears for a while till the novelty wears off.

Everyone is busy on the roads, so they should be in good shape for cars by picnic time.

Mrs Moss is home with her children on a visit to her people. Mr and Mrs McMillan.

Mrs Walter Derrick is also out visiting at her mother's, Mrs Lapp. Floyd Lapp is home again.

Herman Erickson and his father are back in the district.

Mr and Mrs Sisty are back on the ranch.

There is no place like Springdale, that's certain.

Come and join the crowd on July 9th.

"PAL O' MINE" COMING

It is difficult to write restlessly of a play like "Pal o' Mine." There is no doubt that it is an uncommonly fine one, and that in the person of its author, William P. Springer, a man has come to the full fruition of the American Comedy, who has a real idea of life, who is able to infuse that idea into living characters in words, music and song, and who has the courage to admit that in the climax of human experiences two plus two equal four.

"Pal o' Mine" will be seen at the Empress Theatre on Wednesday, July 10th.

Large Increase in Dairying

Saskatchewan Stands Third in Number of Milk Cows per Population

The number of milk producers par-
ticipating in the province of Saskatchewan
increased from 19,700 in 1918 to 26,200 in 1919, or
over 23 percent, according to the
dairy commissioner. A table pre-
pared by the Dominion department
of agriculture, giving the number of
patrons of dairy factories in Canada,
shows for Saskatchewan as follows:
1915, 11,200; 1916, 12,300; 1917, 14,300;
1918, 16,400. The Dominion figures
include, however, only the patrons of
the large manufacturing plants which
submitted reports to the Dominion
bureau of statistics, while provincial
figures registered by Mr. Reed are
complete. Saskatchewan stands fifth
in the list of provinces, according to
the number of producers participating
in the dairies, although it is third
according to the number of milk
cows owned by its population.

Protection for Returned Men

Cases Where Services of Soldier Set-
tlement Board Were of Great Value

W. J. Black, chairman of the sol-
diers' settlement board, was shown
statements made by E. R. Mills,
regarding a committee of inquiry at
Winnipeg into charges that lands had
been purchased at prices in excess of
their value.

He made the following statement:
"In respect to all lands referred to
by Mr. Mills, the settlers themselves
applied for the parcels on which they
were located. Each completed a de-
claration on the board's form stating
that he had examined the land and
desired its purchase for him at the
price which the board afterwards paid."

The chairman further stated that
the land from the beginning had
been the utmost effort to protect the
settlers against their own imperfect
knowledge of farm values. In the
case of Mr. Mills himself, the board
one year ago, much to his chagrin,
had saved him from the purchase of
a property at \$100,000 per acre, for
which he applied, because its ex-
perts in agriculture declared that he
would be unable to make a living
thereon, and that the land was not
worth the price he offered for it.
"During the past twelve months,"
continued Mr. Black, "the board has
saved settlers in the province of
Manitoba alone, a total of approxi-
mately \$200,000 by securing prop-
erties for much less than the price
that the settlers had agreed to pay."
Mr. Black said it was premature
to discuss the conclusions of the in-
quiry before it had been completed.

Crush Military Spirit

Building of Armaments the Greatest
Cause of War

"For the present, all we can do is
to see that the league is not along
lines which are in accordance with
the United States ideals," said Lord
Lloyd in a speech in which he re-
iterated his regret at America's failure
to join the League of Nations.

"It is certain that the United States
in the future do not have a great
event war. Therefore, if the league is
used properly, it will act as a light-
ning conductor in any future storm."

Lord Grey warned emphatically
against the building up of great ar-
maments which, he said, were among
the surest causes of war.

SHORT OF BREATH

Could Hardly Walk
Without Resting

When you go to a physician to be
examined for any heart trouble, one
of the first questions he asks is "Are
you short of breath?"

Now when the heart becomes af-
fected there ensues a feeling of a cho-
king sensation, a shortness of breath,
palpitation, throbbing at the heart,
suffocating, smothering, dizziness,
and a weak, unsteady, tottering feel-
ing of oppression and anxiety.

As the first sign of the heart be-
coming weakened or diseased, un-
derstanding the heart and nerve
trouble, and the importance of the
heart and nerve system, is the first
step in the treatment of the heart
trouble.

Teach the Children to Save

Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.

The easiest way to teach children to save, is to start a Savings Account for each child (\$1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

What The M.L.K. Milker Does

It has been demonstrated by hundreds of dairymen that the M.L.K. Milker will milk thoroughly. It removes from the "all the best cream" (dregs) of hand milking, freedom from the trouble and expense of careless hired help, for a larger herd can be milked with less labor and expense. The great advantage of the M.L.K. machine milking over hand milking is the saving every year in cost of cash. When you add the other advantages you cannot but admit that milking by the M.L.K. method has a long milkmaid by a mile.

By-Law No. 2

A By-Law to prevent Non-Resident Stock Running at Large in the Fertile Valley M.D. No. 459

The Council of Fertile Valley M.D. No. 459 enact as follows: No Non-Resident shall be allowed to run stock in the aforesaid Municipality except on condition of depositing with the Council of the Fertile Valley M.D. No. 459 a sum of \$10.00 for each head of cattle, \$5.00 for each head of horses and \$2.00 for each head of sheep. In the event of a default in the payment of the said sum, the Council of the Fertile Valley M.D. No. 459 may cause the stock to be impounded and the owner to be liable for the cost of impounding and keeping the same. This By-Law to come into force and effect from the first day of July, 1920.

Dated and passed in open council this 12th day of June, 1920.

TIRE ECONOMY

The cotton fabric in the carcass of the tire is the principal factor at present in raising tire prices. The tread protects this fabric against damage from water and dirt. When the tread is cut and punctured the protection is gone. Expensive curbs the tread and the tire is as good as even. When you put in a tread patch the fabric is still taking water and dirt and is spoiling your tire, and also making you pay for it. When we vulcanize a rubber to the fabric of a weak tire it has a ball dog grip. You cannot pull it to pieces. This strengthens your fabric fifty per cent.
